To know that a melody can be adapted by changing its dynamics, pitch or tempo. To know that timbre can also be thought of as 'tone colour' and can be described in many ways e.g. warm or cold, rich or bright. To know that a counter-melody is different to harmony because it uses a different rhythm as well as complementary notes.
MAKING CONNECTIONS	 Year 5 – Composition to represent the festival of colour (Holi) To know that a vocal composition is a piece of music created only using voices. To understand that varying effects can be created using only your voice, for example by changing the pitch, dynamic or tempo of the sounds made. To understand that human voices have their own individual timbre, and that this can be adapted by using the voice in different ways. To know that the duration of a note or phrase in music can be shown using a repeated symbol or the size of a symbol on a graphic score. 	Year 5 – Looping and remixing To know that dance music is usually produced using electronic percussion sounds, and recordings of the music are played by DJs in clubs or at festivals. To know that a loop is a repeated rhythm or melody, and is another word for ostinato. To know that remix is music that has been changed, usually so it is suitable for dancing to.	 Year 5 To know that rock and roll music uses blues chord structures, with a fast tempo and strong vocals. It was created after the second world war and it was intended to represent happiness. To know that musical theatre includes both character and action songs, which explain what is going on and how characters feel. To know that choreography means the organisation of steps or moves in a dance. To know that musical theatre uses transitions, which are short passages of music used to move between sections of the musical action. To understand that musical theatre includes both character and action songs, which explain what is going on and how characters feel. To know that varying effects can be created using only your voice, for example by changing the pitch, dynamic or tempo of the sounds made. e.g. To understand that a slow tempo and a minor key (pitch) can be used to make music sound sad. To know that human voices have their own individual timbre, and that this can be adapted by using the voice in different ways. To know that a loon is a repeated that more melody, and is another word for estinato.
